### Colin's Angels

Colin's Angels was started by the family of Marianne Sifer to honor the memory of her son Colin, who passed away from a genetic disorder.

"We make monkeys. Each one is two feet tall, and I, myself, make close to 500 of them each year," says Marianne.

The finished monkeys are donated to CHOP, St. Christopher's Hospital for Children, Big Brothers/Big Sisters of Bucks County, an inner city group called Precise Princess, and several others. "I do this to honor the memory of our son and to put smiles on faces of children in need of one!" says Sifer.

Fairfield is at the heart of these animals with our Poly-Fil® brand fiber fill.
