WELCOME TO THE HUB!

homebridgeventures.org
One Lafayette Circle, Bridgeport, CT 06605

HomeBridge Ventures combines a focus on healing from trauma and adverse experiences with supportive employment and career mobility for formerly incarcerated individuals.

OUR MISSION

We work to keep people out of prison, in employment, and in our community.

Our Programs

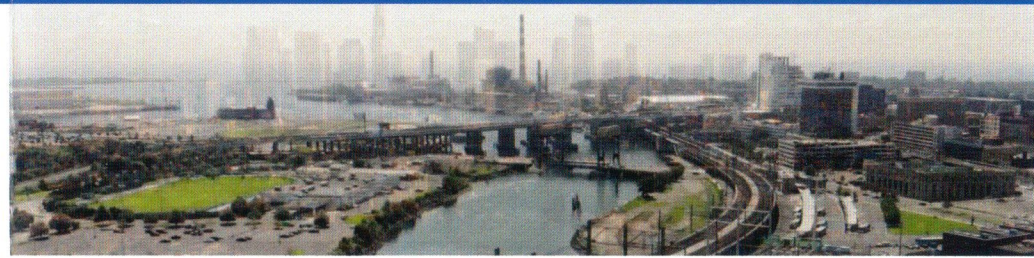

The Hub offers weekly workshops, classes and groups, as well as providing one-on-one support and referrals to basic services. The Hub is open to any formerly incarcerated individual to spend time with their fellow community members, participate in healing activities, work with our trained staff, and develop a career.

HBV Electronics Recycling Social Enterprise hosts an 18-month supportive employment program. Apprentices will be paid a full time hourly wage, working three days on the job and two days on themselves initially, and gradually increasing their workplace participation and skills building.

COMING
SOON

HBV Second Chance Employer Support is a service we will offer to any employer committed to hiring multiple formerly incarcerated individuals. We send a trained staff person onsite to meet regularly with employers, supervisors, and staff and conduct workshops in order to create a supportive work environment, increase productivity, and decrease turnover.
